

# Deepa Hospital

https://deepahospital.in/ • Chennai

GROWTH OPPORTUNITY

LOW

## EXECUTIVE SUMMARY

IAMONIN Healthcare Growth Analyzer completed an automated, non-invasive digital audit of Deepa Hospital's publicly accessible website (https://deepahospital.in/) on September 24, 2026.

The overall observable growth opportunity is rated as LOW.  
The website exhibits a Technical Health score of 85/100, SEO Readiness score of 90/100, Healthcare Struc...

## 1. Observable Growth Scores

|                  |                      |                    |                  |
|------------------|----------------------|--------------------|------------------|
| Technical Health | SEO Readiness        | Healthcare Content | Doctor Authority |
| 85/100 [A]       | 90/100 [A]           | 100/100 [A]        | 59/100 [C]       |
| Patient Journey  | Conversion Readiness | Local Presence     | Content Depth    |
| 85/100 [A]       | 75/100 [B]           | 75/100 [B]         | 100/100 [A]      |

## 2. Top High-Impact Growth Opportunities

1. Instant WhatsApp Patient Consultation Desk

04 Appointment Conversion

Evidence: WhatsApp consultation or appointment booking links were not detected on any crawled page.

Action: Implement a direct, automated WhatsApp patient triage desk button across high-intent specialty and doctor profile pages.

2. Physician Schema & Dedicated Profile Architecture

02 Doctor Authority

Evidence: 3 doctor profile(s) lack Schema.org Physician JSON-LD structured data.

Action: Deploy dedicated URL slugs for each consultant with complete biographical, qualification, and Physician JSON-LD schema.

3. Automated Lead Recovery & Missed Enquiry Follow-up

05 AI Follow-up (Discovery Required)

Evidence: Observable website shows enquiry capture points, but internal response latency and missed call recovery require hospital-side discovery.

Action: Deploy IAMONIN AI Follow-up workflows to instantly acknowledge web leads, send WhatsApp reminders, and recover missed enquiries.

4. OPD Funnel & Patient Acquisition ROI Tracking

06 Growth Intelligence (Discovery Required)

Evidence: Front-end tracking tags and internal CRM integration status require discovery discussion.

Action: Implement IAMONIN Growth Intelligence dashboard connecting digital touchpoints to OPD consultations and IPD admissions.

### 3. Priority Implementation Roadmap

| Priority | Opportunity & Action                                                                                                                       | Impact | Effort | IAMONIN Module |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------|--------|--------|----------------|
| HIGH     | <b>Instant WhatsApp Patient Consultation Desk</b><br>Implement a direct, automated WhatsApp patient triage desk button across              | HIGH   | LOW    | Appointment    |
| HIGH     | <b>Physician Schema &amp; Dedicated Profile Architecture</b><br>Deploy dedicated URL slugs for each consultant with complete biographical, | HIGH   | MEDIUM | Doctor         |
| HIGH     | <b>Automated Lead Recovery &amp; Missed Enquiry Follow-up</b><br>Deploy IAMONIN AI Follow-up workflows to instantly acknowledge web        | HIGH   | MEDIUM | AI             |
| HIGH     | <b>OPD Funnel &amp; Patient Acquisition ROI Tracking</b><br>Implement IAMONIN Growth Intelligence dashboard connecting digital             | HIGH   | MEDIUM | Growth         |

### 4. Hospital Discovery Questions

Requires hospital-side information to evaluate internal conversion funnel and patient retention.

- Q1 [Enquiry Workflow]**  
How are website and social media patient enquiries currently captured and routed to the front-desk/OPD team?
- Q2 [Technology & CRM]**  
Does the hospital utilize a dedicated healthcare CRM or HMS integration for digital lead tracking?
- Q3 [Conversion Funnel]**  
What is the current estimated conversion percentage from initial enquiry to confirmed OPD consultation?
- Q4 [Lead Recovery]**  
How are missed calls and after-hours patient enquiries handled and recovered?
- Q5 [No-Show Reduction]**  
Are appointment confirmation and attendance reminders automated via WhatsApp or SMS?
